Charlestown

About : July 20, 2019 marks the 50th anniversary of the first humans landing on the Moon as part of NASA's Apollo 11 lunar mission. Join Renée Gamba, Director of the Museum of Natural History and Planetarium, to learn about NASA's past lunar missions, and what future plans it may have for the Moon. This family fun program includes engaging hands-activities to learn about our Earth and its nearest neighbor in space! Make craters, learn about moon phases, and more!

Audience: This family program is recommended for children ages 5- 12. This is not a drop-off program.
